Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. Claim 1 line 8 "useful information" and "non-useful information" are not clear. Specification does not explain what is useful information. What qualifies information to be useful on non-useful? Clarification is needed for what is "useful information" and what is "non-useful information" and how it is qualified to be useful or not. Please, point out a part(s) of specification which explains this limitation.

2. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are:

Claim 1 lines 10-12, "sub-scoring and "scoring", merely doing another scoring process does not provide "investment decisions and/or strategies" as it is stated in pre-ambles. Applicant has missed a limitation(s) that clarifies the scope of the claim, what information has to be filtered out and what has to be kept, if this is not within the level of ordinary skill in the art.

Claims 14 and 15 are system and product claims for claim 1, therefore they are rejected with same rationale as claim 1.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 1 is rejected under 35 U.S.C. 101 because: The claimed invention lacks patentable utility. The claim stops at generating scores, how it is utilized is missing.

Claim 1 has no tangible result, the claim stops at generating a core. None of sub-scoring and scoring has been applied to produce useful (specific substantial and credible) result. Claim 1 lacks a concrete result, because how to separate "useful information" from "non useful information", is this process repeatable and if it is how? For example, some information may be useful to one ordinary skill in the art, while the same information may not be useful to second (i.e. political condition may be favored (useful) by one analyst then second analyst), therefore it is not repeatable.
